## INTRODUCTION

---

I am a young and ambitious Digital Arts graduate always looking to expand my experience and further my career as a Visual Effects Compositor.

As a strong independent learner I regularly apply compositing theory and techniques to independent film projects in my spare time and always look to expand my knowledge with the ultimate aim of becoming a better compositor.

If there is space for someone with my outlook at your company I would love to hear from you.

---

## INDUSTRY EXPERIENCE

---

### **Burke and Hare**

**Blue-Bolt**  
*Compositor*

London, UK  
*Jun- July 2010*

---

**EDUCATION**

---

**BA(hons)Digital Arts***Thames Valley University, 2006***FXPhd.com**

Online training courses taken for Nuke, Shake, PFTrack, Syntheyes &amp; Roto (silhouette).

Online Training

---

**SKILLS AND SOFTWARE KNOWLEDGE**

---

A good understanding and continuing the pursuit of knowledge with Shake, Nuke, After Effects, Cinema4D, Photoshop, Silhouette, Syntheyes and PFTrack.

---

## TESTIMONIALS

---

“Matt worked with us at Stranger FX, and stayed with us as we transitioned to Nvisible. Through thick and thin, Matt has remained reliable, good fun to have around, and a productive member of our compositing team. We have given him some quite tricky shots to complete, and he's come through every time. He always remains keen, interested and I'm sure his progress through the underworld that is visual effects will be relentless. I have no hesitation in recommending Matt as a compositor, and would like to work with him again.”

**Paddy Eason**  
**VFX Supervisor, Nvisible Visual Effects**  
<http://www.nvisible.com/>

“Matt is a very promising junior compositor who is always willing to take on a challenge. He managed to turn around some quite tricky shots, and has a good understanding of both Shake and Silhouette. (And possibly Nuke, but we weren't able to give him the opportunity of showing that off when he was with us) I can see a promising future for Matt, and I would certainly bring him back to work here in the future.”

**Hugh Macdonald**  
**Head of 2D, Nvisible Visual Effects**  
<http://www.nvisible.com/>

“Last month (August 2008), I was looking for composers to work on a short drama called Night Shift, a fifteen minute pilot shot on HDCAM. I found two composers, both of extraordinary standard, and Matt Plummer was one of them. His energy and passion for compositing are equal to his thirst for staying abreast of the latest 2D and 3D software. And at the 11th hour, his dedication and good nature prevailed. I am pleased to say that I am very happy with his work. He's a good lad, a good compositor, and has my sincere recommendation.”

**Mark Hawtin**  
**Director / Editor**  
[www.markhawtin.com](http://www.markhawtin.com)

“Matt has helped me on several levels through web coding to compositing fixes on our film 'Tantric Tourists' each time delivering the highest level of quality and often learning the skills and software required to do so on the job with what I consider amazingly proficiency. For someone of his age, Matt is incredibly mature. He is able to take instruction and then work offline to provide results which need little or no revisions and can be trusted to get the job done with no supervision.

His passion will keep him up late into the night striving for perfection. He will be an asset to any production.”

**Alexander Snelling**  
**Senior European Mentor Trainer; FCP, Color, Motion**

“Matt has been a key partner in bringing Lord of Pain from page to screen. As the sole visual effects artist on the film Matt brought a high level of professionalism and knowledge as well as the ability to hit the very tight deadlines we had in post production. From concept to completion Matt was communicative and collaborative and I have no hesitation in recommending him for future work.”

**Daniel Cox**  
**Producer 'Lord of Pain'**
